EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

On page 1 line 5 update the continuing information by replacing "allowed January 12, 2004" with ---now U. S. patent 6,780,205---

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's remarks has resulted in the mooted of the 103 rejection of claims 12 and 13 as being unpatentable over BASF in view of Kritchevsky et al. As stated by applicant, BASF does not disclose the process of dyeing with vatted dyestuffs, which are dyes which have been made soluble by reduction. On the contrary, BASF teaches dyeing with insoluble dyestuffs, which are the vat dyestuffs in their oxidized or insoluble state. They are not combined with a reducing agent selected from the group of reducing agents as claimed. Accordingly, the reference cannot be combined with Kritchnevsky who teaches a process of forming a stable dry composition

of hyposulfite particles comprising a carboxylic acid comprising 12-22 carbon atoms.

For these reasons, the rejection is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
